

PUBLISHED DAILY AND TRI-WEEKLY BY

ALEXANDRIA:

MONDAY MORNING OCTOBER 4, 1858.

The Nortoik Argus admits that the different Congressional Conventions, of all parties, in Pennsylvania and New Jersey, give unmistakable indications of the growing popularity of a tariff so arranged as to encourage American industry and American manufactures. As to "a high protective tariff," that is what, we believe, no one aims at or expects. It would be sufficient, in adjusting the details of duties, to arrange them so as to afford fair and adequate encouragement to the skill and way of raising a sufficient revenue for the wants of the government, to the plan of helping by that means, as far as possible, the people. Long ago, Gen. Jackson declared himself in favor of a "judicious tariff."

The National Intelligencer has an account ands, in favor of "annexation" to the United | wind of the proceedings, and, with his train-States, a notice of which has already aptransaction, which offers us what we have so long wanted, a magnificent "coaling depot" in the heart of the Pacific. Whether to secure this convenience it will be expedient to "annex" the whole Society group, may possibly raise a doubt in the minds of a few not sufficiently imbued with adequate ideas of American progress and expansion, but the great national importance of this Raiatea-Tahaan question can be doubted by none."

The Fredericksburg News speaks in favorable terms of several of the Manufacturing establishments in Fredericksburg. Several of the mercantile firms there bave largely increased their business within the last few key' years. Rents, too, are higher than they were. Success to the old "burg," and all her people!

The Fredericksburg Recorder says: - "We pahannock county, that the Typhoid Fever has made its appearance in the neighborhood of Slate Mills. The writer also states that there will be an average crop of corn made by the Liverpool joint stock banks. in his neighborhood, although they have had no rain worth mentioning for nearly three

A violent rain storm, accompanied with heavy thunder, vivid lightning and a blustering wind, commenced at Buffalo at about two o'clock last Thursday afternoon, and travelled as far eastward as Hudson. All telegraph communication with the officers on the New York, Albany and Buffalo line had to be suspended, the lightning preventing the wires from working.

The number of American sea-going vessels reported as positively lost during the past month, amounts to 18, viz: 2 ships, 3 barks, 4 brigs and 9 schooners. The severe 50 other vessels (mostly small craft) ashore, a large number of which, owing to the stormy season coming on, will probably have to be added to the list.

The National Intelligencer hones that our difficulties with Paraguay may be peacefully settled-and that the Commissioner sent out to that country may be able to arrange all matters in dispute, without a resort to guns and armed forces of the Paraguay expedition. We hope so, too.

Some of the papers in Western Virginia speak of an abundance of mast in that quarter, but the Frederick-burg Herald says entire county. There are some chinkagine. but very few chestnuts.

cession of the opposition party at Circinnati, Bi-hep Onderdonk, of New York, to the an explosion took place from the accidental Eniscopate. He says that the matter meets firing of a quantity of powder in a wagon with the approbation of Bishon Potter, of from which a cannon was being fired. Lewis P. Lee was blown cut of the wagen and has herer-fore stood in antagonism to Bishfatally injured, and James Hume and Robert on Onderdonk. Kirkup were scriously injured.

The State Department has not yet received information, officially, of the offer said to have been made by the Governers of the Society Islands, to cede their Islands to the carly part of the month had an excellent ef-United States.

Over 1,000 sors were killed on one tide, on Friday week, at Elkton, Cecil county, Md On the Tuesday preceding 800 were bagged. One gentleman from Philadelphia killed 158.

The Virginia Springs are all deserted .-The receipts this year were the largest ever known. The receipts of the Old Sweet were over \$70,000.

The number of plantations in the believe, as the General certainly had to quit dificial water works, where a little water is three provinces, exclusive of those made by Arab tribes in common, which, however, are inconsiderable, is 460. Several plantations have suffered from drouth.

The number of students in Yale College is now 555, of whom 455 are connected with the Academical and with the Professional Department. There is an increase of 8 in the former, and a decrease of 18 in the latter, from last year. In the Academical departgale in the middle of the month drave some ment, there are 35 students from the Southern States. The number of Professors and Teachers is forty-two.

> An individual by the name of Wm. Earl, was placed in the Jefferson Jail on Sunday night last, where he is awaiting his passport to one of the Public Buildings in Richmond. for stealing three hundred doilars and a gold watch from Mr. Wm. Williams of Harpers-Ferry, on the night of the 11th inst. When taken, he stated that he had returned to compromise matters.

At Chatham, Canada, a few days ago, a mulatto slave boy, only ten years old, was foreibly taken from his master, a Southerner, who had stopped there on a railway train. there is none of any consequence in Eastern The Sheriff and a party of negroes did it. Virginia. In some counties it doubts whether The boy cried and clung to his master, but ten bushels of acorne can be gathered in the the crowd carried him away, and the train went off with his master.

A New York correspondent mentions, a-On Wednesday evening last, during a pro- among the probabilities, the restoration of

Corn Crop at the West.

It is stated that private letters from the West represent the yield of the corn crop as much better than was expected a menth or so back. The warm weather of the fect, and there is now every indication that we shall have a two-third eron and one that will be in a condition to ship. The New York Post says:

It is a notorious fact that our exports of ast year's corn were much reduced in consequence of the softness of the grain, and that millions of bushels went to waste. The present yield promises to be of a bardness and ciency. A few weeks of dry, cold weather A gentleman in Fredericksburg, Virginia, from evil. "Lead us not into temptation." wheat and grain; that the Inspector having strength that will make up the apparent defiwould still further improve the grain and render it a favorite article with shippers .-Weil informed parties believe that in respect superior to that of the previous two years.

The favorable issue of the doubts which hung about the corn crop some months since, is of immense importance to our western railways. The prospect now is that the deliveries of the cerculs at Chicago, within the coming few months, are likely to be very large, and several of the roads are already beginning to rear the benefit of the increased willlinguess of farmers to part with their produce.

British Columbia.

The possessions of the Hudson Bay Company, or the territory of the continent over which they exercise control, contain an area of two millions five hundred thousand square miles. How much is that? It is fifteen and The Blue Ridge Republican advocates the a half times larger than the state of California; about thirty-eight times as large as the a council with the Indians during the present coan voice of temptation? state of New York; nearly twice as large as the whole of the thirty-one states of the Uni n; and if we omit the territory of Nebraska, is as large as all our states and ter-There was frost last week in Rockingham

is turning out better in quantity and quality than was expected; and the Kve remarkably well .-- Clarke County Journal.

No Black Tongue.

An intelligent farmer with whom we have e-inversed, agrees entirely with Mr. Gray Boulware of Caroline, that Black Tongue is a missomer for the diease now affecting cattle throughout a large section of the country .-He says that having followed the suggestions of Mr Boulware, he found parts of the tail of each affected animal in a soft condition, and which gave the animal pain when pressed. Amputation above the diseased part has been a sovereign remedy thus far. Immediately after the tail is cut off-or so much as is diseased-the cattle commence improving and soon appear to regain their wonted health. - Fred. Herald.

Case of Winant Streng.

Winant Streng, the man who shot at M. the Masonic Hall, in Washington, was in amined before Justice Thompson, on Friday only when inquiries are made in reference .. his attack upon the Masons that anything eves are lighted with a strange fire, and he replies become almost unintelligible. There further violence.

But little is known of his past history, et.

cept that he took no part in the G rman ret

lution of 1848, for it was at that time he fire

left his native country. Immediately upon

landing be went to Wisconsin, where he

sided until 1849, when he was carried away

with visions of gold in California, and de-

mined to seek it. He did not proceed direct

ly to California, however, but stopped to M.

souri for a year, working at his trade as

carpenter. In 1850 he left, taking the oreland rouse, and, after undergoing considers ble hardship, arrived at his destination After working in the mines for several year. he became tired of the monotony of his and early in 1853 went to Australia, it success in Australia far exceeded that former life, and it is a little singular that : did not remain there. His digging vis to him half an ounce a day, but in 1854 again lauded in California, after an absenf a little more than a year. If remain in California until May, 1857, when he re ington in December, but has not permanent ly resided here since then. Whilst in Caleta nia, at Mokolumne Hill, he says he became acquainted with the secrets of the Mayand since that time the members have personal cuted him and "made tun" of him. seems to be in great fear of the power of the Masons, and declares that they have put spell upon bim, from which he is very and ious to escape. He alleges this as a motivate for his attack upon the Masons, and addthat he was desirous of killing one of them. in order to provoke them to take his life, and is somewhat different from the story he tole at the magistrate's office, where he signified his intention of taking the lives of all the Masons. This shows the wandering of he Among other singular stories he relates an was his intention to have shot the Presiden 'would have shot him." If he really he
